Objective

Passionate and solid foundation in graphic design, web development, and virtual reality. Gained experience in creating visually appealing designs, developing user-friendly websites, and exploring the potential of immersive VR experiences through academic projects and personal work. Proficient in using various design software, coding languages, and VR tools, with knowledge in JavaScript, React, Laravel, PHP, HTML5, CSS, and API integration. Focused on front-end development and website design, aiming to build responsive and engaging user interfaces that enhance user experience UX. Eager to collaborate with teams and clients to contribute fresh perspectives and creative ideas. Are committed to learning and growing in fast-evolving digital and virtual technology fields.

Professional Experience

Intern, Green Computing Nepal, Nepal

August 2018 - August 2019

- Developed backend features with Laravel and PHP, optimizing server-side functionality.
- Created responsive user interfaces using HTML5 and Bootstrap.
- Integrated and managed databases within Laravel framework.
- Collaborated in agile teams to support full project development.

Education

Interactive Media Management - Interaction Design, Conestoga College, Canada (2024 - Present)

- Conducted usability tests to enhance product interactions.
- Designed visually appealing, user-centered interfaces.

- Researched user behaviors to inform design decisions.
- Applied HCI principles for intuitive interfaces.
- Created prototypes and wireframes to validate design ideas.

Postgraduate Degree - Virtual Reality Production, Conestoga College, Canada (09/2023 - 04/2024)

- Developed engaging VR mini-games and immersive storytelling experiences.
- Executed a comprehensive capstone project, integrating VR production skills.
- Built interactive 3D projects using Babylon.js and crafted animations in Blender.
- Designed detailed, realistic environments in Unreal Engine for enhanced user immersion.

Bachelor of Science (Hons) in Computing, Leeds Beckett University, Nepal (09/2017 - 11/2021)

- Gained a strong foundation in computing, focusing on programming, software development, and data management.
- Developed problem-solving and analytical skills through real-world projects.
- Studied key computing topics, including databases, web development, and systems analysis.
- Worked on collaborative projects, enhancing teamwork and technical communication skills.

Extra projects

Personal Portfolio

Web Developer and Designer

URL: [Mohit Shah Portfolio](#)

- Designed and developed a personal portfolio showcasing projects, skills, and professional experience, with a focus on clean design, responsiveness, and intuitive navigation.

Multi-Converter App

Full-Stack Developer

URL: [Multi-Converter App](#)

- Built an online multi-converter tool with a clean UI and efficient performance, using HTML5, CSS, and JavaScript for a seamless experience.

Weather News App

Front-End Developer

URL: [Weather News App](#)

- Created a real-time weather information application with API integration, delivering accurate, location-based forecasts.

AI Voice Chat App

Developer

URL: [AI Voice Chat](#)

- Developed an AI-powered voice chat tool using JavaScript and Web APIs, providing users with interactive, real-time voice AI assistance.

Food Recipe App

Front-End Developer

- Developed a Food Recipe App using API integration to provide users with detailed recipe information, search functionality, and user-friendly navigation.

Social Media Personalization Assistant – Self-Initiated Project

Developer and Designer

- Designed a Chrome extension to enhance social media branding with custom analytics and personalized recommendations based on engagement metrics.

E-commerce Website

Full-Stack Developer

- Built an e-commerce platform using Laravel with secure authentication, product listings, a shopping cart, and payment processing.

Deccani Nawab (Client Project)

Web Developer

URL: [Deccani Nawab](#)

- Developing a customized web solution for a client, focusing on responsive design, user experience, and optimized performance tailored to the client's unique brand and audience.
